THAI-TOP | FULL PRODUCT DESCRIPTION

Thiamethoxam 30% FS

PRODUCT DETAILS

Brand: THAI-TOP
Category: Systemic insecticide
Technical composition: Thiamethoxam 30% FS
Formulation: FS (flowable concentrate for seed treatment)
Pack shown: 1 Litre

Product Description

THAI-TOP is a seed-treatment insecticide formulation containing Thiamethoxam 30% FS. When used according to the approved label, it is intended to help protect treated seed and young plants against the specific insect pests listed for the registered crop uses. The correct crop, target pest, application rate and treatment procedure must be confirmed from the official label before use.

KEY PRODUCT FEATURES

- Seed-treatment formulation for label-approved uses.
- Contains Thiamethoxam 30% FS as the active ingredient.
- Designed for use according to the registered crop and pest directions.
- Helps support early-stage crop protection when used correctly.

IMPORTANT SAFETY INFORMATION

Use only for approved crops and target pests and strictly follow the label for dose, seed-treatment procedure, protective equipment, storage and disposal. Do not use as a foliar spray unless the approved label specifically permits it. Keep out of reach of children; avoid contact with skin and eyes.
